Instructions for Fabric

Leather is a living material that matures beautifully if treated properly. You should therefore consider the following:
Never place leather furniture closer than 20-30 cm to a radiator or in direct sunlight.
Vacuum clean leather often with a soft brush and, when necessary, clean any exposed surfaces, such as armrests and headrests. For stains that are water-soluble, dampen the area and dry using a paper towel.
If you should get a stain that cannot be removed, never experiment with strong solvents or chemicals. The problem could get worse, needing to be repaired: instead return to the store from which you purchased the furniture and ask for advice. If the staff cannot answer, ask them to contact the manufacturer for the correct advice.
For you to be able to take the best possible care of your leather furniture, Elmo has developed a water-based leather care programme with a cleaning (leather cleaner) and a protective (leather protection) component.
