Instructions for Fabric

One of the best ways to keep Sunbrella fabrics looking good and to delay the need for deep or vigorous cleanings is to hose fabrics off on a monthly basis with clear water. This practice will help prevent dirt from becoming deeply embedded in the fabric and eliminate the need for more frequent vigorous cleanings. In most environments, a thorough cleaning will be needed every two to three years. When it's time for a thorough cleaning, Sunbrella fabrics can be cleaned in a washing machine if they can be removed. When cleaning Sunbrella fabrics, it is important to observe the following: Always use a natural soap. Never detergent. Water should be cold to lukewarm. Never more than 100 degrees. Air dry only. Never apply heat to Sunbrella fabrics.
