IC-09 104 250

€1114

Please note – prices do not include VAT.

Seat Height	650 mm
Finish	Red Lacquered Beech

Upholstered seat (optional)

Fabric Supplier

Description

Japanese and Scandinavian design meet in Massproductions Icha series, an elegant furniture family with a light yet sturdy construction.

The Icha chair was introduced for the first-time during Stockholm Design Week 2017 and was well received, picking up Elle Decorations “Chair of the Year” award the following year. The Chair is characterized by its round section steam bent armrests which provide high comfort while the narrow backrest helps to create a transparent chair from all angles.

The Icha Chair is a complex wooden chair in solid, layer-glued and steam bent wood, a combination that makes it dependent on three different production techniques. The chair is constructed to cope with the challenges of public environments and meet the requirements of “Möbelfakta”, the Swedish quality standard for furniture. In connection to its Möbelfakta certification, the Icha Chair passed quality testing to meet the requirements for use in public spaces. This involved a test of 100,000 cycles, with loads of 100kg on the seat and 30kg on the backrest.

Specifications

Width: 575 mm

Depth: 515 mm

Weight: 7 kg

Height: 950 mm

Seat Height: 650 mm

Awards:

ELLE Decoration Design Award 2018 - Årets Stol 2018 - Icha Chair

Certificates:

Möbelfakta Certified

Instructions for Fabric

One of the best ways to keep Sunbrella fabrics looking good and to delay the need for deep or vigorous cleanings is to hose fabrics off on a monthly basis with clear water. This practice will help prevent dirt from becoming deeply embedded in the fabric and eliminate the need for more frequent vigorous cleanings. In most environments, a thorough cleaning will be needed every two to three years. When it's time for a thorough cleaning, Sunbrella fabrics can be cleaned in a washing machine if they can be removed. When cleaning Sunbrella fabrics, it is important to observe the following: Always use a natural soap. Never detergent. Water should be cold to lukewarm. Never more than 100 degrees. Air dry only. Never apply heat to Sunbrella fabrics.
