Specifications

Width: 520 mm

Depth: 500 mm

Weight: 6 kg

Height: 845 mm

Seat Height: 650 mm

Instructions

For metal surfaces: Rinse with large quantities of water. Clean with wetting agent solution and use a sponge or soft cloth. Post-rinsing and drying. Specific instructions based on type of soiling: Greasy film can be removed with a concentrated wetting agent solution, alcohol or surfactant, after allowing the solution some time to break down the film before removing. Unidentifiable, stubborn dirt can be treated with facade cleaner (e.g., Ambruch2 www. ambruch.de) or Power Wipes www.interflon. net. Note: The specific methods listed here should be tested accordingly for possible damage to the surface.
