Finish

Red Lacquered Beech

Upholstered seat (optional)

Fabric Supplier

Information

Year: 2010

Certificates:

Möbelfakta Certified.

Product image may differ from your selection.

Description

A sturdy piece of furniture with legs that widen toward the footrest. Albert is a refined version of the iconic English pub stool which inspired it.

Through a lifecycle analysis with a focus on mass and energy the CO2 emissions from the production has been calculated to 0.0782 KG of CO2. Read more in our [Transparency Page](#).

Lead time 6 weeks.

Instructions

For cleaning of wooden surfaces, advantageously use a detergent, or mild pH neutral detergent and lukewarm water in a well wrung cloth. Then wipe off with clean water and wipe dry. To preserve the look and finish you should be aware not to use: – Alkaline or aggressive cleaners, – Solvent – Preparations containing abrasives, – Abrasive tools. Remember not to let the cleaners or other liquids on the surface for long. For furniture and surfaces for use in public spaces, it is also important to remember not to use disinfectants that contain a high concentration of alcohol or alkaline substances, such as 70% alcohol. There are disinfectants that can be advantageously used, but that does not affect the painted / varnished surface appreciably. Note that freshly painted surfaces are susceptible to scratching. Surface final resistance is only achieved after about a month. Tape and other foreign substances such as, for example, adhesive and moisturizers can soften the treated surface and cause peeling / paint drop. For cleaning of the fabric/leather, see instructions related to the specific fabric/leather in use.

Instructions for Fabric

Some textiles can be washed. Preferably inside out. Depending on the product, please maintain a wool/hand wash program at 40°C. Make sure you spindry the textile with low speed (800 rpm). This way your textile will stay in good shape. However, please note that the colour and look can get slightly fuzzy. The textile should be dried flat to avoid losing its form. Do not tumble dry. Let the textile dry very carefully, especially the thick, padded textiles, as the filling can stay moist. Be aware of the fact that the textile can shrink slightly after washing. However the stretch feature compensates any shrinkage which may occur. For special upholstery we recommend dry clean only.

When stains occur, act as quickly as possible to keep your textile beautiful. Remove liquid stains by carefully dabbing with a clean cloth, preferably white. Do not rub. When rubbing too hard you can damage the textile and the colour may fade.

Most stains can be treated with soapy lukewarm water. Never use hot water as heat will set stains. We recommend using a PH neutral detergent. Rub the stain gently with a clean cloth and afterwards dab the textile dry with a dry cloth to absorb moisture and soil. Should a stain still occur we recommend you to use other detergents. But always test this on a discrete area of the textile first. Please note these are only recommendations. We can never guarantee complete stain removal. We always recommend contacting a professional cleaning company for additional advice regarding your stain. For more information see our website.
